For me, Stride was an easy choice because it was in my hometown, where I went to school, and the people were familiar.

## Testimonial time!

“I’ve been a member of Stride for about 10 years now, ever since I was able to start making some money on my own. For me, Stride was an easy choice because it was in my hometown where I went to school, and the people were familiar. One thing I’ve really enjoyed about working with Stride is how most of the people are local, easy to talk to and anytime I have gone to ask for a loan, it is super simple and very fast. It can be as easy as sending a text or an email, I don’t even have to go in person. Stride has helped me create my farming business.” -Randi Wright, Stride member
